

SUBJECT: Update – DCSI Board of Directors reaches agreement on clubs and activity registration

Dear Students,

Durham College Students Inc. (DCSI) is pleased to announce that the Board of Directors has approved a new Club Services offering for students.

As you may know, DCSI had reached an agreement to share services through University of Ontario Institute of Technology Student Union (UOIT SU)'s Clubs & Societies department. That agreement concluded on August 31, 2018. Since that time, DCSI has been focused on ensuring that the clubs, services and offerings provided to Durham College students are an accurate reflection of the needs and interests of the student community.

With our new department DC students will be eligible to register a Club, Society, or an Indigenous Student Circle. All information will be included in the registration package. To request the registration package for the new Club Services, or for more information, email us at dcsi@durhamcollege.ca.

We appreciate your patience during the transition period and are excited to launch this new Club offering for students.

Regards,

Board of Directors

Durham College Students Inc.
